Nick Where are you from, Mojca?
Mojca I'm from Ljubljana. It's the capital city of Slovenia.
Nick Oh, right. Is it a big city?
Mojca Well, it's our capital city but it isn't very big. A lot of tourists come in the summer so it's busy in the centre. But it's small, really.
Nick Do you live there?
Mojca No, not at the moment. My parents live there. And my brother. But I live in a small town 20 kilometres from the city. I often go to Ljubljana at the weekend. The bars and restaurants are very good and you can sit near the river and watch people.
Nick What do people do in the summer in Ljubljana?
Mojca Well, a lot of people leave the city in the summer. They go to the beach or they go to the mountains. The mountains in the north of the country are very beautiful.
Nick And in the winter?
Mojca Well, it's very cold in the winter. We often stay at home and watch TV! We eat a lot of food and drink Slovenian wine, which is very good. But some people go to the mountains. You can ski there in the winter.
Nick Thanks for telling me about your country, Mojca. It was very interesting.
